

Online Research in Progress 2023 Programme

11th May:

- 09:00 **Welcome and opening remarks**
Tamar Ghosh, Chief Executive, *Royal Society of Tropical Medicine and Hygiene*
- 09:05 **Keynote lecture**
Emerging Leadership in One Health: A way to success in Health Professions
Dr Mian Muhammad Awais, 2022 RSTMH Emerging Leaders Award recipient
- 09:50 Dog bite injuries in Kitui, Kenya
Dr Peris Kung'u, Kenya, *University of London – Royal Veterinary College*
- 10:10 Prevalence of soil-transmitted helminths, anaemia, and nutritional status among rural school-aged children in Garut, West Java, Indonesia
Dr Pandji Dhewantara, Indonesia, *National Research and Innovation Agency*
- 10:30 Primary Healthcare Service delivery for Older People with Progressive Multi-morbidity in Low- and Middle-Income Countries: A Systematic Review
Mr Duncan Kwaitana, Malawi, *Kamuzu University of Health Sciences*
- 10:50 **Break**
- 11:05 **Guidance Session**
How to get published
Tom Pinfield, Managing Editor, *Royal Society of Tropical Medicine and Hygiene*
- 12:00 Designing and parameterising mathematical models for novel vector-control interventions targeting gaps in protection to drive malaria elimination using data from semi-field and field studies.
Dr Emma Fairbanks, Switzerland, *Swiss Tropical and Public Health Institute*
- 12:20 Assessment of burden and risk factors associated with Soil-transmitted helminth infections among adolescent girls in Katete District of Zambia: A Cross-Sectional Study
Mr Buumba Tapisha, Zambia, *Zambart*
- 12:40 Are drug-resistant pathogens in human populations putting penguins at risk? Prevalence of salmonella in two populations with different anthropogenic influence.
Ms Clara Maria Wiederkehr Bruno, Costa Rica, *University of Edinburgh*
- 13:00 **Close**

12th May:

- 09:00 **Welcome and opening remarks**
Tamar Ghosh, Chief Executive, *Royal Society of Tropical Medicine and Hygiene*
- 09:05 **Guidance Session**
How to communicate your work
Alice Sharman, Communications Manager, *Royal Society of Tropical Medicine and Hygiene*
- 09:50 Synthetic epitopes as enriched targets for therapeutics development in cobra bites treatment
Dr Michelle Yap, Malaysia, *Monash University Malaysia*
- 10:10 Potential of snails xenomonitoring as a tool for indirect monitoring and evaluation of schistosomiasis community-wide mass drug administration campaign
Ing. Enoch Mensah Boateng, Czechia, *Czech University of Life Sciences*
- 10:30 Investigating Plasmodium falciparum artemisinin drug resistance mutations in PfK13 gene from some endemic areas of Cameroon
Miss Charlotte Sabine Milong Melong, Cameroon, *The University of Douala*
- 10:50 **Break**
- 11:05 **Guidance Session**
How to get funding
Adheem Malik, Grants Manager, *Royal Society of Tropical Medicine and Hygiene*
- 12:00 Perceptions and beliefs regarding the origin/existence of COVID-19 and its influence on attitudes of Cameroonian population towards the proposed containment measures: an observational study
Ms Linda Djune Yemeli, Cameroon, *University of Toronto*
- 12:20 Meningitis Mortality Model (3M-Score): a clinical risk-predictor tool for adult meningitis
Dr Pankaj Sukhadiya, India, *All India Institute of Medical Sciences*
- 12:40 A proof-of-concept randomized control trial on the role of increased protein quantity and quality ready-to-use therapeutic food in improving linear growth among 6-23-month-old children with severe wasting in Malawi.
Miss Isabel Potani, Malawi, *University of Toronto*
- 13:00 **Close**
